why stuart moore?

Hello, I'm stuart moore. Welcome to our site.

We have been designers, manufacturers, retailers, as well as diamond & gem brokers for over 40 years. We believe it is our contacts made, and experience gained, that allow us to offer you a unique package ...

We hope you'll find us respectful, informative and, although professional, a bit more fun than is often the case.

We operate like an art gallery. Our galleries, although offering the best of traditional wedding and engagement rings, specialize in modern, designer jewelery.

At any one time we offer the work of about thirty, top designers, from all over the world. Through them, for more than forty years, we have had the honor, yes, honor, of being host to an ever-changing selection of work which we believe brings the latest and best in modern design jewelery to the US market.

We are fortunate indeed to work with these highly acclaimed (and highly independent) artists who have agreed to come together under one roof; our roof.

Many have become our dear friends and these trusting relationships, built over the years, have allowed stuart moore to become the largest source of this design niche in the USA.

A majority of the designer's work shown at stuart moore is exclusive to us in the US. However, that doesn't mean high prices. We always honor the pricing suggested by each individual designer in their home market, ensuring you pay no more at stuart moore for any of the pieces we sell (landed in the US) no matter where else in the world you could shop.

Our pricing policy, in normal circumstances, is to never be undersold.

Our quality policy is to always give maximum value at your budget, never an inferior copy of a quality piece.

The ingredient uniting all designers at stuart moore is that we are not just a retailer, we are also one of them.

My own work, the stuart moore collection, is sold exclusively in our own galleries and on this site.

Building the stuart moore collection combines the ancient skills of hand-fabrication by our in-house master goldsmiths, with the latest in machine-tool technology. We never cast anything.

Although I dabble a bit in unusual one-off pieces of jewelry which I think deserve to be built, my specialty is engagement and wedding rings.

All these pieces are individually created from platinum and gold bars with twice the hardness and twice the strength of that used in about 90% of jewelry sold in the US, bringing you the very best quality available, anywhere.

stuart moore rings are not round. They are ergonomically shaped to fit the finger. This is much more comfortable than a round ring and seriously reduces them from rolling around the finger.

Completing the package, you'll find, in the diamonds section of this site, that we sell GIA certificated diamonds, over a half-carat, at really great prices.

We think you'll also see we're as picky about the stones we sell as the jewelery, carefully sifting the market for only the top 2% of available stones in cut grade to ensure maximum beauty.

We ask you to check us out on these claims and we recommend our video called the stuart moore difference, as a starter.

We hope you'll enjoy the videos we've made to give you the insider picture of how the cutting, grading, certification and pricing of diamonds can work for, or, against you.

They're called, 'diamond basics', 'size versus weight' and 'compare'. You should also be sure to check out our new video 'Certificates', as it gives really important guidance on diamond pricing.

Finally, the bow on our package.

As you'll see, if you go to the customer's comments part of our site, which we've called 'wanna know moore', our clients speak of our people with affection as well as respect.

Our salespeople and goldsmiths are truly part of the difference at stuart moore because they always remember your buying jewelery is about love or appreciation and is supposed to be a joyful event.

Our people are not paid on commission, count on them to be discreet, friendly and professional rather than intrusive.

Whether you shop online, in our galleries or a combination of both, on behalf of all at stuart moore, I welcome you again and hope you enjoy your visit.

Thank you ...
